Exam A

QUESTION 1

Lisa is the project manager of the SQL project for her company. She has completed the risk response planning with her project team and is now ready to update the risk register to reflect the risk response. Which of the following statements best describes the level of detail Lisa should include with the risk responses she has created?

- A. The level of detail is set by historical information.
- B. The level of detail should correspond with the priority ranking.
- C. The level of detail must define exactly the risk response for each identified risk.
- D. The level of detail is set of project risk governance.

Correct Answer: B

QUESTION 4

You work as a project manager for BlueWell Inc. Your project is using a new material to construct a large

warehouse in your city. This new material is cheaper than traditional building materials, but it takes some time to learn how to use the material properly. You have communicated to the project stakeholders that you will be able to save costs by using the new material, but you will need a few extra weeks to complete training to use the materials. This risk response of learning how to use the new materials can also be known as what term?

- A. Team development
- B. Benchmarking
- C. Cost of conformance to quality
- D. Cost-benefits analysis

Correct Answer: C

Section: (none)

QUESTION 8

Sammy is the project manager for her organization. She would like to rate each risk based on its probability and affect on time, cost, and scope. Harry, a project team member, has never done this before and thinks Sammy is wrong to attempt this approach. Harry says that an accumulative risk score should be created, not three separate risk scores. Who is correct in this scenario?

- A. Harry is correct, because the risk probability and impact considers all objectives of the project.
- B. Harry is incorrect, the risk probability and impact matrix is the only approach to risk assessment.
- C. Sammy is correct, because organizations can create risk scores for each objective of the project.
- D. Sammy is correct, because she is the project manager.

Correct Answer: C

QUESTION 15

Examine the figure given below.

Risk	Probability	Impact
A	0.55	-10,000
B	0.4	-65,000
C	0.3	-90,000
D	0.6	-25,000
E	0.45	-30,000
F	0.7	-245,000

What will be the expected monetary value of Risk C?

- A. -\$113,750
- B. \$175,000 if the risk event actually happens
- C. -\$175,000
- D. -\$27,000
